Supawit Srimahachot 58113077-0

Model Design : Automatic Fan

- ▶ Case study 1: Automatic Fan
- ▶ Given information
 - Ultrasonic Sensor
 - Turn on when near the fan
 - Turn off when away from the fan
 - 7-Segment
 - Display status of the fan

Model Design : Automatic Fan

► Specification

System information

- MCU : STM32L152RB
- Sensor : HC-SR04 module
- Seven Segment
- Software :Keil/Language : C

Function

► Function

- Detect user when near the fan
- Automatic on/off control
- Show status of the fan
- Delay 10 seconds to turn off after user leave the fan

Model Design : Automatic Fan

► Architectural Design

Model Design : Automatic Fan

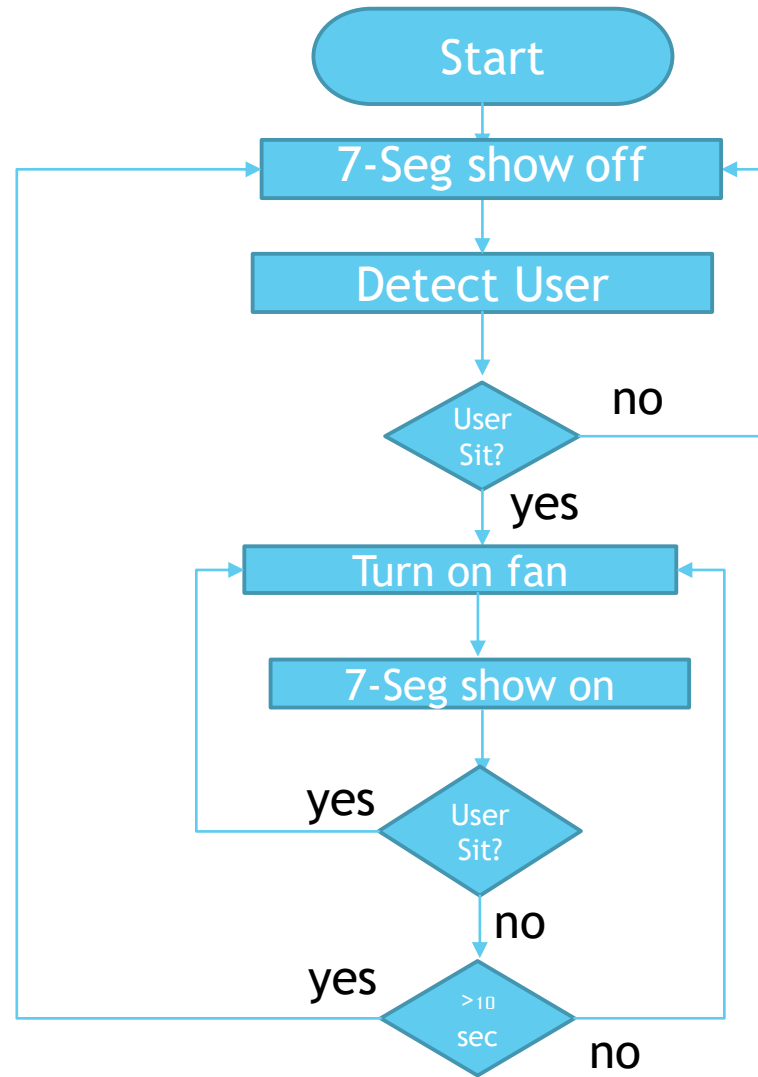

- ▶ Architectural Design
- ▶ Pin Used
